Catch of the Day - Bass with Lemon

“Journalist” Don Lemon Gets Squeezed

by John Taylor

Independent “Journalist” Don Lemon was arrested and charged after barging into a Minnesota church and filming anti-ICE protesters as they disrupted a church service.

After appearing in federal court in Los Angeles, Lemon was released from custody. Afterwards he proudly boasted outside to the media that he was arrested for ‘covering the news’, adding: “I will not be silenced.”

Lemon was charged with conspiracy to deprive rights and interfering with religious freedoms by obstructing religious First Amendment rights by force.

Lemon stormed the Cities Church in St. Paul

on January 18, 2026 with rabid protesters who claimed one of the pastors was an ICE official.

This was a premeditated and shameful display of “journalism” by defunct CNN hack reporter, Don Putrid Lemon to invade church services in Minnesota and punch a mic into the pastor’s face while grilling him with questions.

LA Mayor, Karen Bass (a Lemon-aide), then praised him for his heinous act at a news conference, admonishing all reporters to emulate Lemon’s example in pursuing “intrepid reporting” and opposing anything that has Trump fingerprints on it, including ICE. The Democrats and liberal media literally have no shame.

Bad Bunny, Bad Spanish, Bad Look

by John Taylor

Bad Bunny. A disgusting, invasive rodent of ill repute who embarrassed and offended countless persons viewing his halftime show at NFL's Super Bowl LX in California February 8, 2026.

Slobbering "muy malas palabras" in Puerto Rican attrition Spanish like a druggie, even latinos found it impossible to understand this degenerate "pop hero" of Gen Z/Millennials.

The disrespect Bunny foistered on the United States of America by honoring territory Puerto Rico and all American countries in both hemispheres more than this country he frequently inhabits - and who made him filthy rich, by the way - was despicable.

"The dancing was disgusting, especially for young children that were watching from throughout the USA and all over the world."

Metastasizing Anti-ICE Protests Yield New Minnesota License Plate

by John Taylor

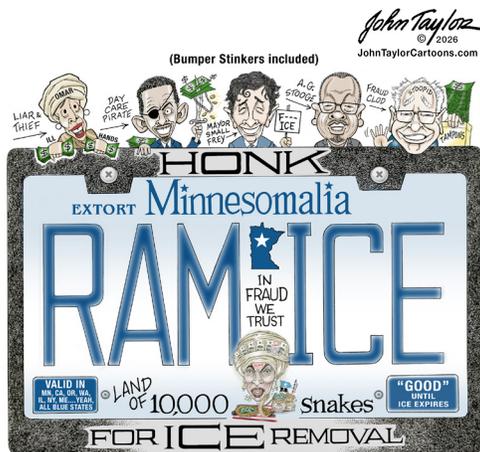

The mean, ugly and profanely aggressive protests by deranged white liberals, especially rabid, white, older chicks, against Immigration and Customs Enforcement (ICE) will bring the U.S. to the brink of regional civil wars.

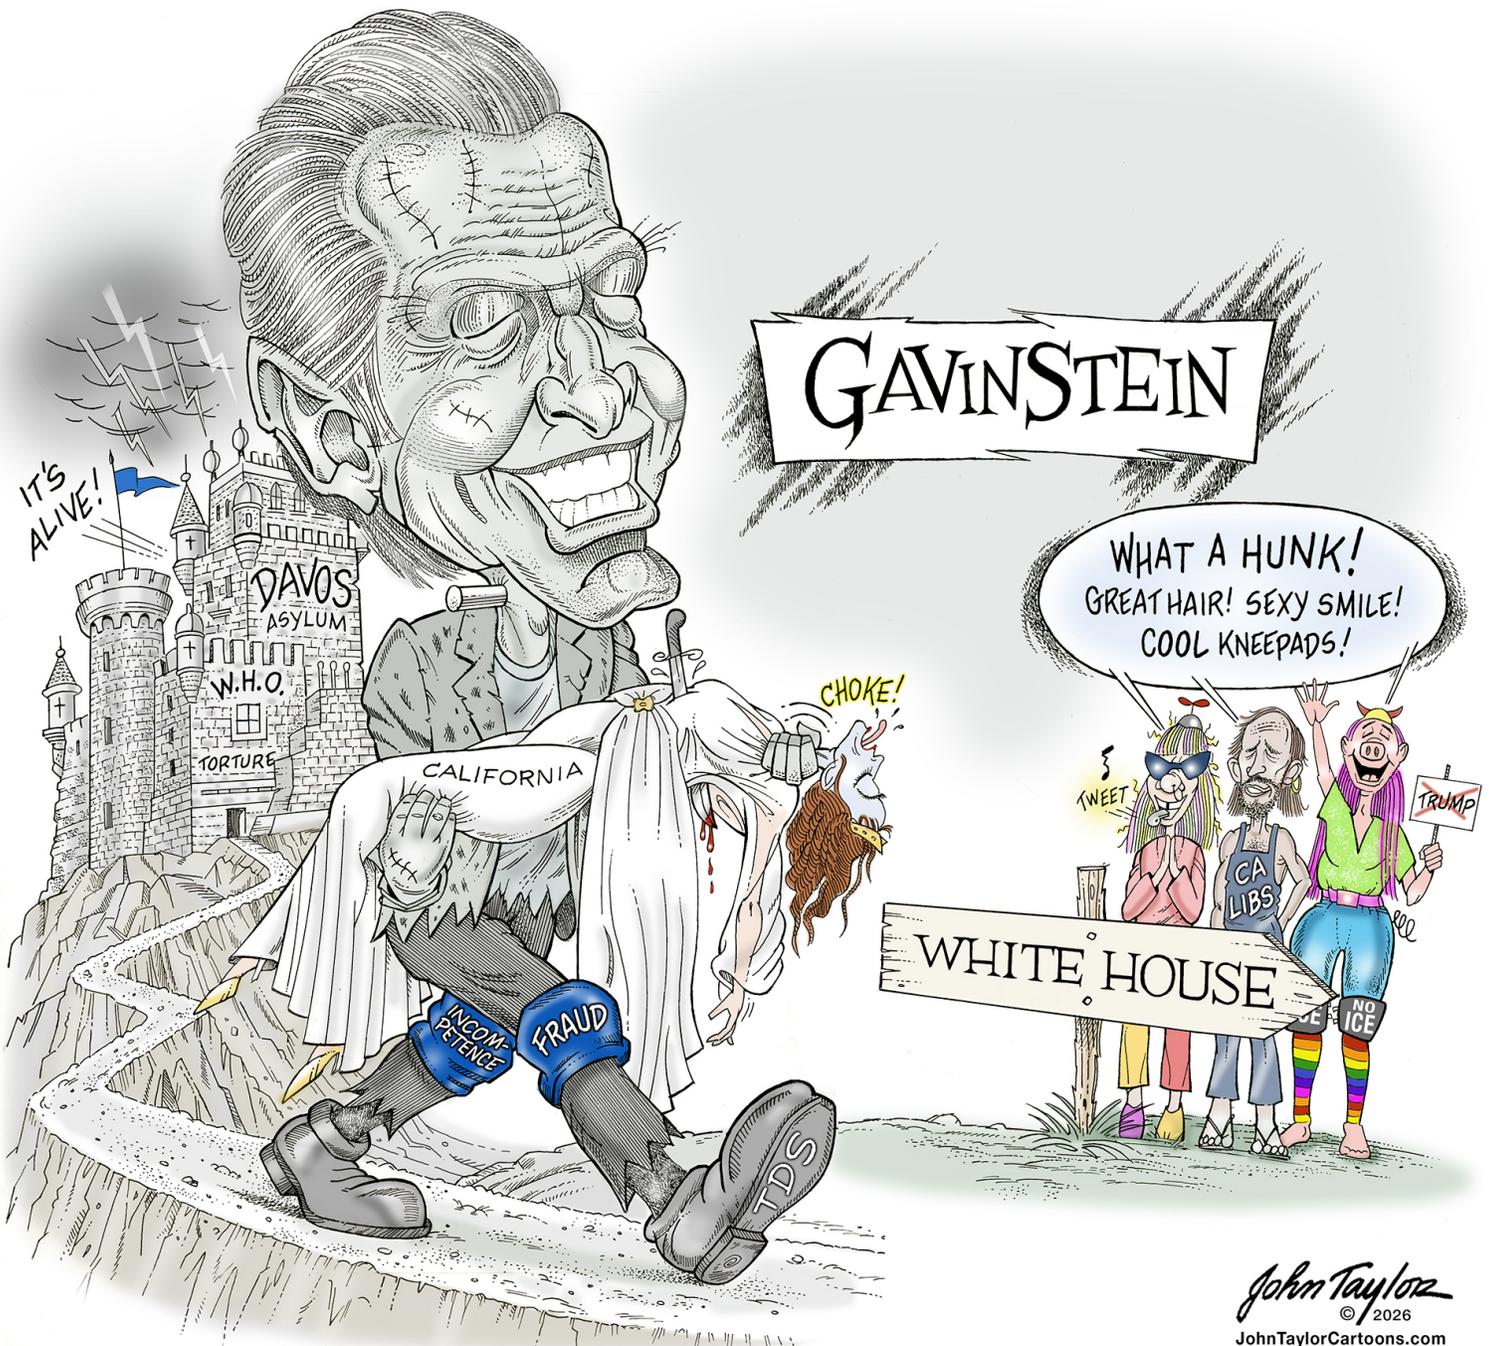

Let ICE and CBP (Customs and Border Protection) do their jobs, keeping America safe from the 20 million unvetted illegal

riffraff allowed into the country by illegitimate president Joe Biden.

It's apocalyptic to see this sweeping national cancer which is a flagrant disrespect to law enforcement, and its weaponization used by radicalized individuals to ram their vehicles into ICE vehicles and officers with impunity.

All funded by millions from Soros' groups.

Newsom Escapes Davos - Liberal Monster on the Loose!

by John Taylor

IT'S ALIIIIIVE!

Demented California Governor, Gavin Newsom, has been showing up on strategic world stages to dump on Trump and his policies, appearing every bit the angry, spiteful, American apologist, like Obama.

Considered by many to be the front-running Democrat presidential candidate for 2028, Gavinstein has systematically destroyed the Golden State with runaway taxes, regulations, monumental environmental failures and much more since being sworn in 2019.

Known for his guapo good looks, stylish oily hair and mindless hand gesturing, Newsom

continues to virtue-signal and get it wrong on every 80-20 issue – but voters and illegals don't care. It's all physical perception.

“Liberalism is a mental disorder.”

Dr. Michael Savage

Encouraging endless homeless camps to sprout up, shoot up, and defecate in major California cities, allowing illegals to invade and devour any and all benefits in sanctuary cities, and peddling his destructive brand of political and social snake oil, this incompetent fool has

transformed the Golden State into the Fool's Gold State, complete with fraud galore.

What Newsom has done to California is the model for his plan to likewise destroy America and expunge every value and virtue we have held dear since America's founding.

Gavinstein must be stopped by an assault of political pitchforks, and most conclusively, at the ballot box, before his tyrannical reign of idiocy and ruin leaves this country in ashes, as was Pacific Palisades under his monstrously negligent watch.

California and America deserve much better.

“Democrat” Mayor, Zohran Mamdani, Completes Bolshevik Takeover of the Rotten Apple

by John Taylor

The newly crowned General Secretary of NYC, Comrade Zohran Mamdani, vows to deliver everything cost free to the city’s residents.

Proposals center on radicalizing New York City’s social framework through major “investments”, funded solely by increased taxes on high-income earners and corporations, featuring universal free childcare, rent freezes on stabilized units, fare-free buses, and a \$30 minimum wage by 2030, alongside defunding and diminishing the role of the police.

And don’t forget Mamdani’s fantasy city-run grocery stores, a 9.5% property tax hike, a “raid” on the NYC rainy-day fund, and burgeoning trash piling up on streets for the City That Never Sweeps. Now that’s the warm stench of collectivism.

This left-wing commie lunatic is very bad seed for a very bad apple. New York City is getting exactly what they deserve and voted for.

The legacy media would have you believe that while Trump and other opponents keep calling Mamdani a communist, he identifies as something different: a democratic socialist.

However, Mamdani is subtly but definitely pursuing the communist path, advocating for a communist system where property is collectively owned.

Meanwhile, all’s fare in Mamdani’s “free bus trips”.
