Radical Islam is Covering the Earth

by John Taylor

The world is being overtake by Muslims, and worse, radical Islam. (Islam is the religion and Muslims are its members.)

Europe with its open borders is primed for this maniacal invasion, the aim of which is to overthrow traditional European cultures and institute Sharia law. It is only a hairline shift, transforming from traditional Islam to radical Islam where 110% allegiance to Allah is mandatory, women are treated lower than cattle, and wholesale bloodshed is the norm.

Radical Islam is spreading across Europe among descendants of Muslim immigrants. Disenfranchised and disillusioned by the failure of integration, some European Muslims have taken up jihad against the West. They are dangerous and committed—and have flooded into nations without borders. Brookings Institute

Given extremely high birth rates within the Muslim community, it is only a matter of time before all of Europe and other countries take the first step back into the Dark Ages. Britain has already succumbed.

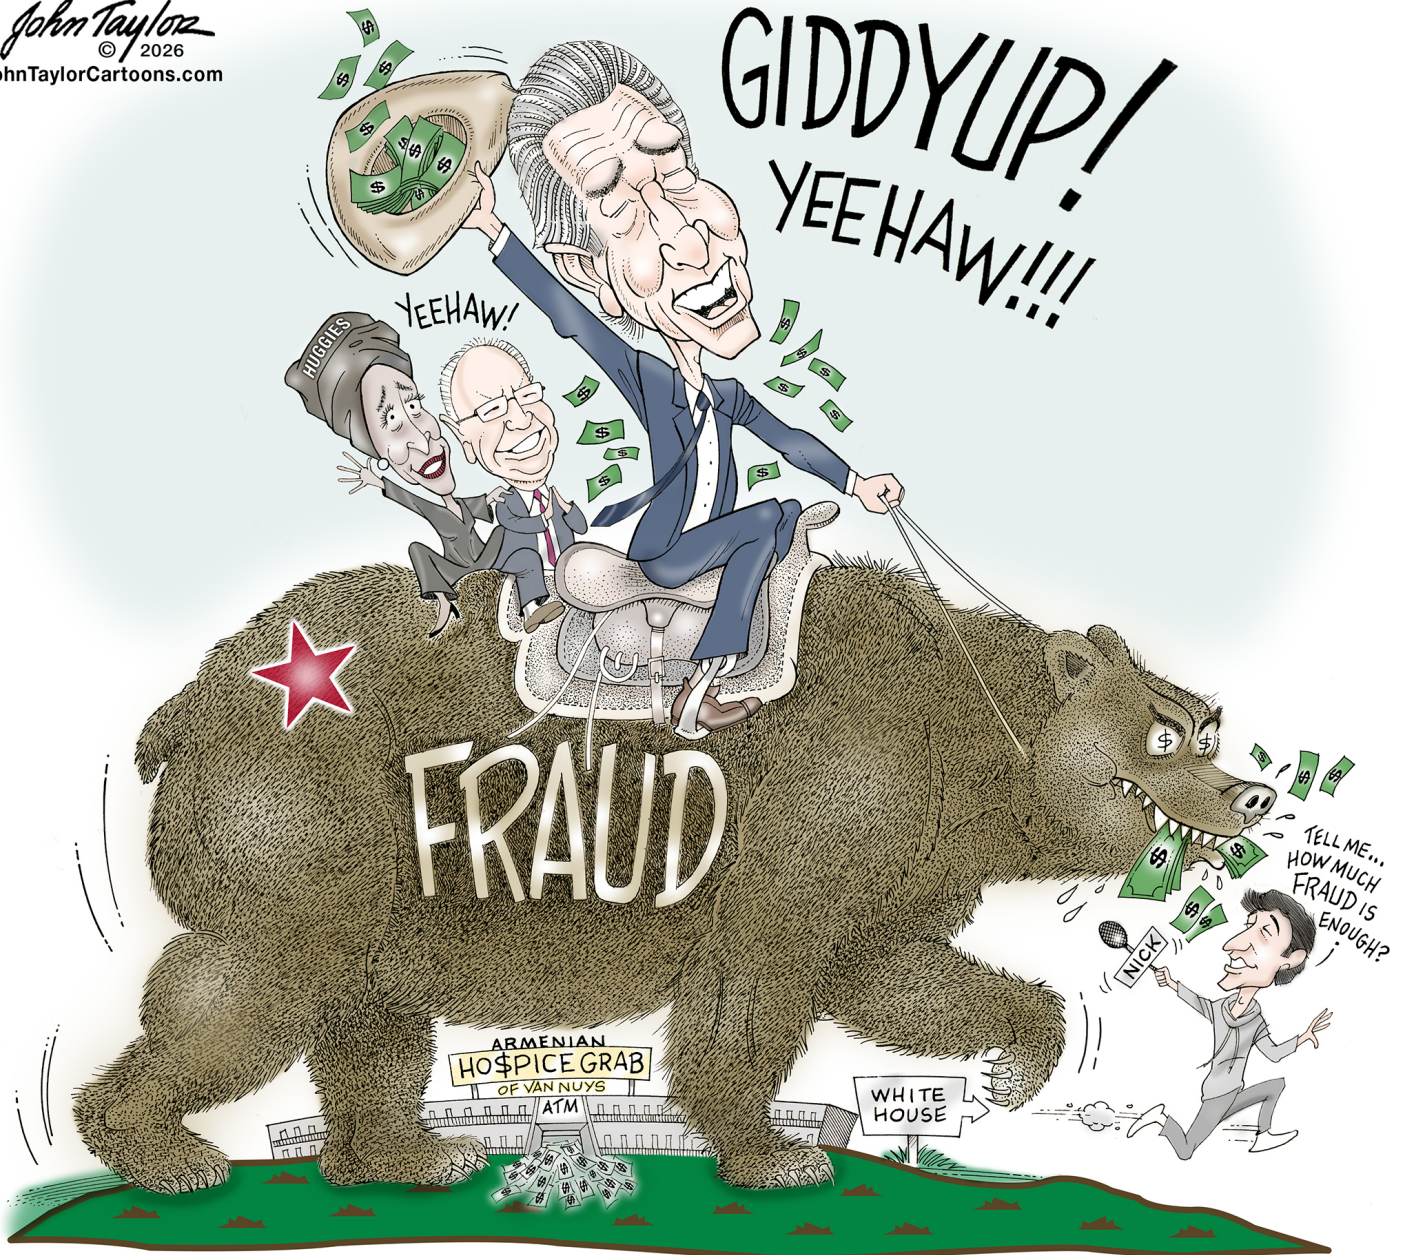

Islam is indeed “Covering the Earth”, demographically and culturally, and with abject disdain for peoples and governments.

Our Mission:

To declare and celebrate our God-given freedoms and liberties as guaranteed by the Constitution, and ensure they endure.
To defeat Democrats, Liberals, and the Uniparty by exposing their illegal, immoral and radical socialist/communist agenda, and by convincing others to be fearless in speaking out against them in public and on social media.

CALIFORNIA ROB^{the}PUBLIC

Giddyup, Gavin! California's Darling of Fraud

by John Taylor

Inconceivable billions in fraud, waste, and corruption in California have been undeniably exposed, thanks to independent reporter, Nick Shirley of Utah.

Shirley recently visited the Merabi Medical Building in Van Nuys where he knocked on doors of 200 "registered" hospice and day

care facilities and found virtually nothing – no patients, no office staff, no children. The

I believe in God. I'm religious. I'm everything that they hate."

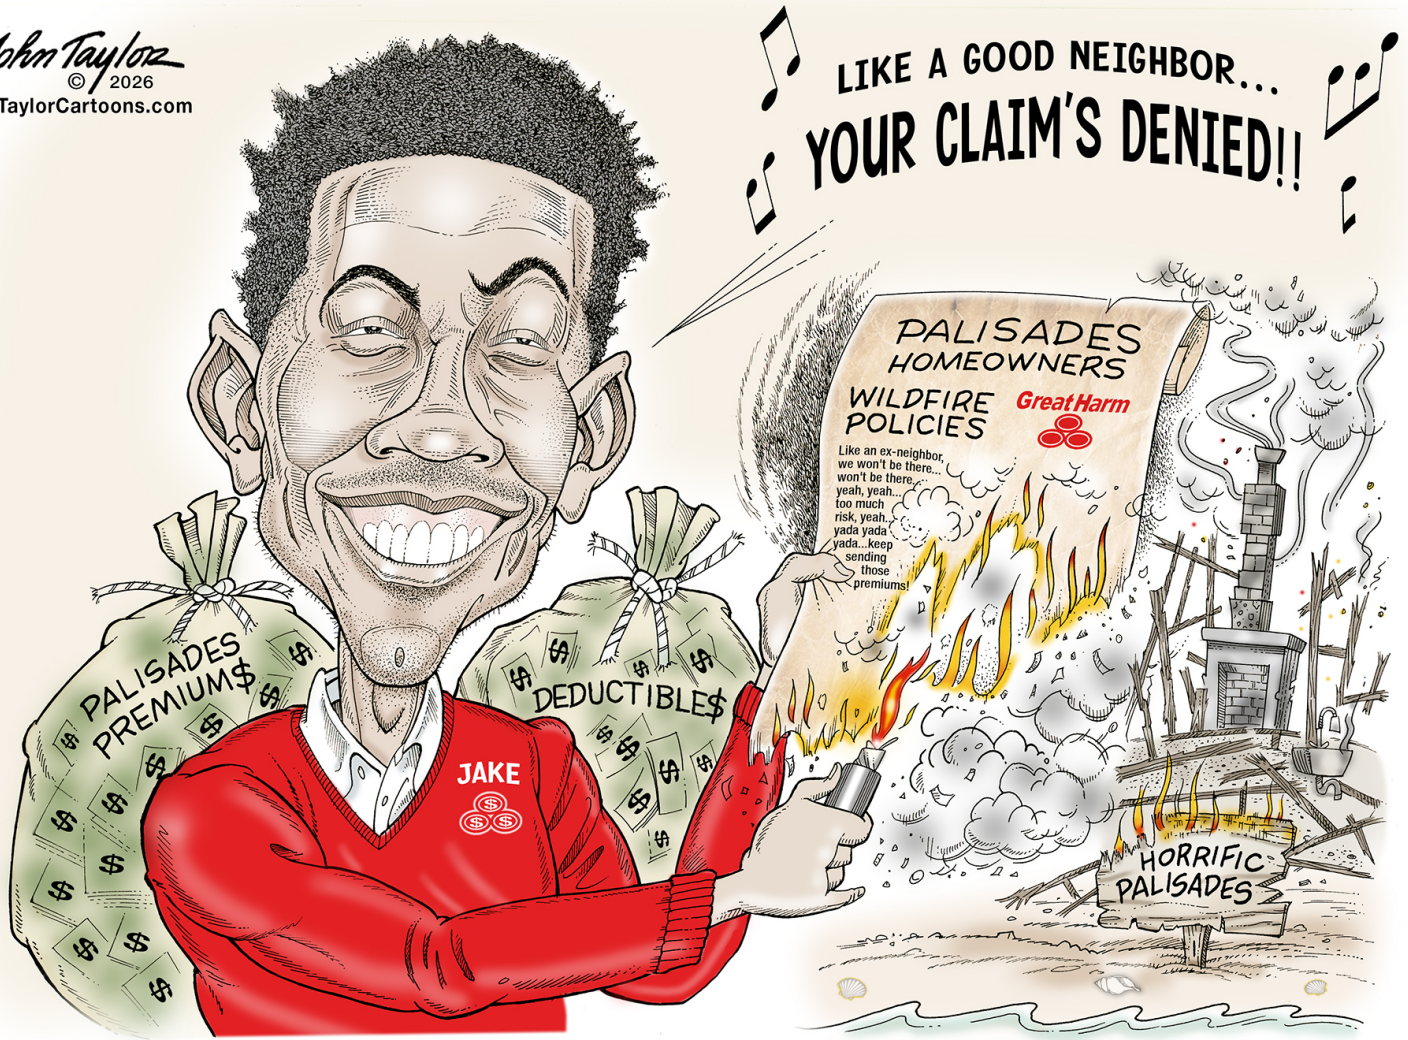

Nick Shirley

fraudsters, getting wind of Shirley's presence and not willing to face the music, sped off in their \$200,000 Mercedes Maybachs like smoked-out cockroaches. Apparently this is an

Armenian money grab, not unlike the Somali money grab in Minnesota with their day cares and "learning" centers.

At the fraud apex is California Governor, Greasy Gavin Newsom, riding high atop the golden grizzly, ecstatic how illegals are assisting him in defrauding the Golden State and bilking the government out of billions.

It is well past time that Giddyup Gavin be thrown from his saddle and confined to the manure pile of bad actors.

State Farm Abandons California Homeowners Amidst Wildfires

by John Taylor

The Good Neighbor is reducing its exposure in California by halting new policies and nonrenewing policies in some of the highest-risk areas.

The insurance company has pocketed billions in premiums from homeowners over many years, but with an "Act of God" wildfire in 2025, combined with the usual California red tape and regulations, this ex-neighbor has decided to bail on homeowners' fire insurance policies.

State Farm spends an absurd amount on marketing and unnecessary expenditures. Insurance could be cheaper, but then they couldn't pay Jake's multi-millionaire's salary for a service that is required when owning a mortgaged home, car loan, or business.
