## JURASSICK PARK A GEORGE-SAURUS VENTURE

### Jurassick Park – Political Sexual Predators

by John Taylor

Former Democrat President Bill Clinton and Democrat California ex-Representative Eric “Fang Fang” Swalwell, along with Democrat California Governor Gavin Newsom and Republican Representative Tony Gonzales proudly exhibit their extended time in public service as bearers of the venerable torch of shame.

These are “crème de la scum” specimens,

making excellent additions to the Veloci-raper wing of Jurassick Park. These models of promiscuity on the public dole are rapacious predators who represent their constituents with unflinching dedication to upholding the lowest values imaginable.

Venial creatures of day or night, these rapist raptors are fueled by wealthy liberal sponsors, Nancy Pelosi and George Soros.

### Our Mission:

To declare and celebrate our God-given freedoms and liberties as guaranteed by the Constitution, and ensure they endure. To defeat Democrats, Liberals, and the Uniparty by exposing their illegal, immoral and radical socialist/communist agenda, and by convincing others to be fearless in speaking out against them in public and on social media.

# The Fauci Rodent Outbreak

by John Taylor

Anthony Fauci, the self-proclaimed face of science, is a name that will live in deepest infamy.

Directly and indirectly responsible for untold Covid-19 deaths during the pandemic, this pervasive rodent lied under oath, enriched himself beyond measure, and promoted gain-of-function research (any natural process or *experimental technique* that alters an organism's genetic code to give it a new, enhanced, or modified biological trait - aka the Wuhan Lab).

Fauci's guess-work recommendations on masking up, as well as his bogus 6-foot social distancing rule, drew harsh opposition and undermined public trust.

Currently on the run, Fauci will likely escape justice in this life for his cunning duplicity and nefarious acts to spread deadly contagion, but he can't run from eternal justice in the courts above.

“Rather than a scientist, Fauci is an operative and an active collaborator in a vast, well-oiled corporate-state syndicate.”

– Robert F. Kennedy, Jr.

## James Carville - The Ragin' Cajun Viper

by John Taylor

Democratic strategist, James Carville (aka the Ragin' Cajun), was hatched a snarky snake, dwellin in the bayou of deceit, lies, and hypersonic profanity, while constantly defaming the GOP.

Fortunately, Carville venomously attacks his own party, the Democrats. In 2025, The New York Times reported:

“Democratic strategist James Carville ripped Democrats for their lack of unity and warned that the party is “steamrolling toward a

civilized civil war” in an essay.

“Constipated. Leaderless. Confused. A cracked-out clown car. Divided,” Carville wrote in a guest essay published in The New York Times. “These are the words I hear my fellow Democrats using to describe our party as of late. The truth is they're not wrong: The Democratic Party is in shambles.”

Carville said that New York City mayoral candidate Zohran Mamdani's win in the city's primary “represents an undeniable fissure in our political soul.”

### Jimmy Kimmel - Unfunny Useful Idiot of the Left

by John Taylor

Bring back funny man Johnny Carson.

The airing of the late night excuse of a “comedian”, Jimmy Kimmel, a TDS riddled hate machine, demeans and embarrasses the

legacy of late night humor and entertainment. Kimmel’s brazen attack on First Lady Melania Trump went so far as to imply a death

“Look at Melania, so beautiful. Mrs. Trump, you have a glow like an expectant widow.”

– Jimmy Kimmel

threat to her husband, while Disney/ABC thumped their drums in approval.

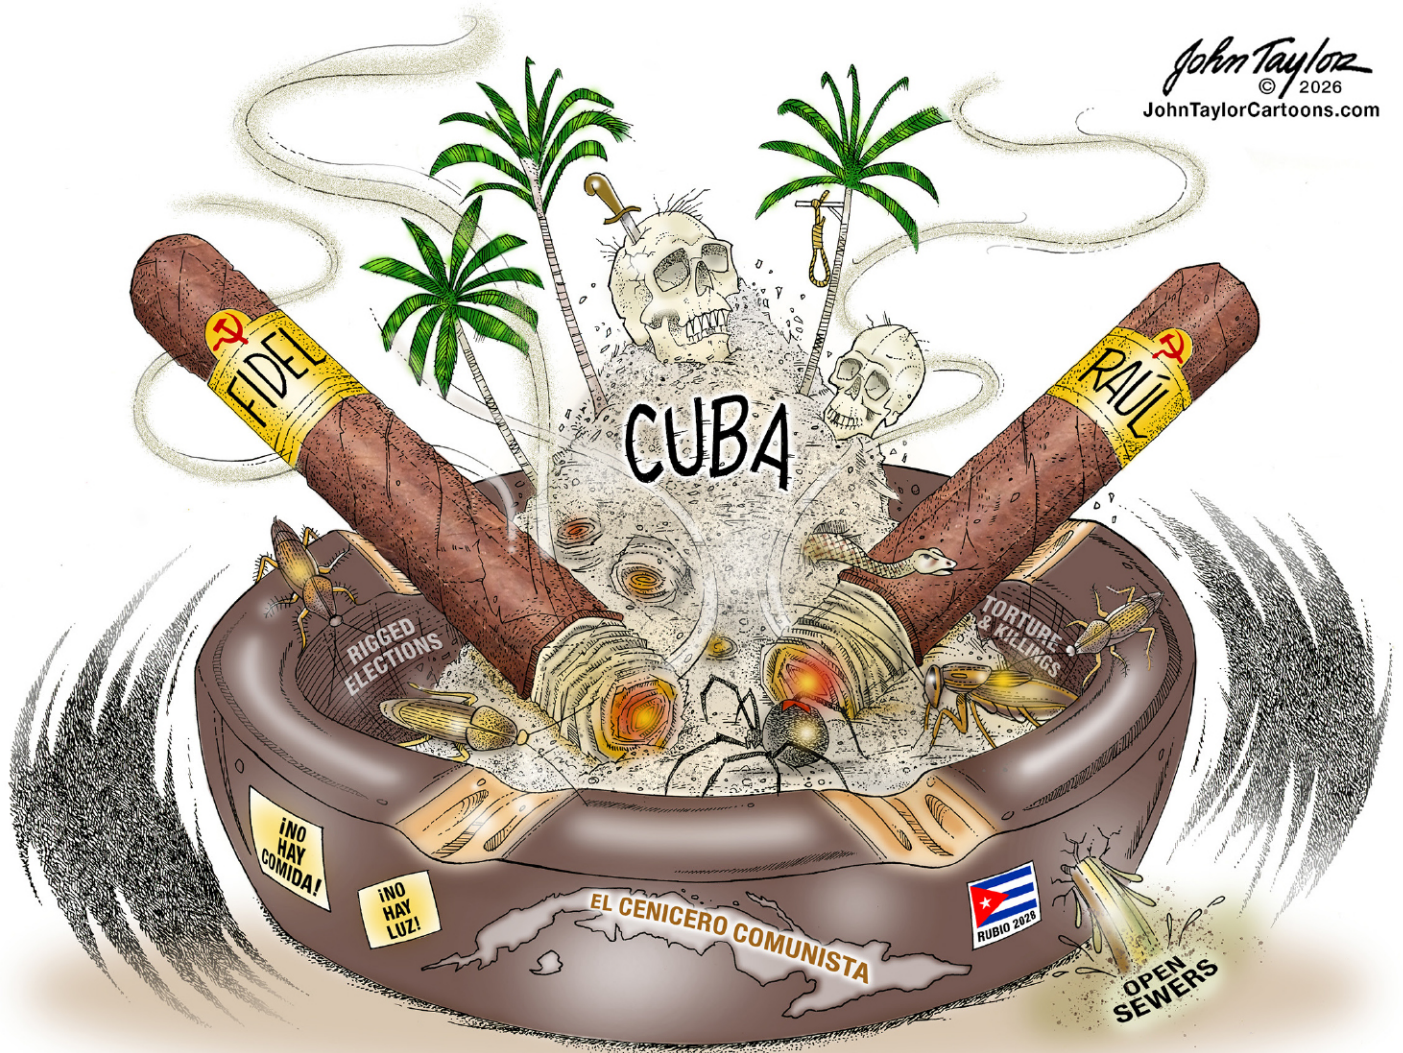

The First Lady fired back, publicly calling the joke “hateful and violent rhetoric”, and both she and President Trump demanded that ABC fire the late-night host.

The joke’s on you, Kimmel, you vitriolic piece of late night refuse.

“Liberals are very broadminded: they are always willing to give careful consideration to both sides of the same side.”

– Thomas Sowell

## The Warm Stench of Collectivism - since 1959

### Cuba Conundrum

by John Taylor

Nearly 70 years of predatory and murderous communism perpetrated by the sick and twisted Castro brothers, Fidel and Raúl, have decimated this proud island nation.

Cuba is undergoing its worst economic and energy crisis ever, caused by a severe shortage of fuel, extensive blackouts, and mounting political pressure from the United States.

Decades of centralized, state-planned economics, bureaucratic nightmares, and

non-existent structural reforms have left the economy vulnerable to catastrophic shocks.

It is time for regime change for this failed and rotting communist country, and time for President Trump to free the oppressed Cuban masses from the Castros, liberating Cuba from its place in the ashtray of history.
